SUBJECT: CD-ROM Initiative for Distribution of the Annual Disclosure, "Dear Doctor" Letter and Participation Enrollment Material

I. GENERAL INFORMATION

A. Background:

The CMS initiated a pilot for mailing the annual disclosure and "Dear Doctor" material on CD-ROM. The first pilot was for the 2003 mailing and involved a single carrier with jurisdiction over 11 states. The second pilot was for the 2004 mailing and involved six carriers that service a total of 26 ½ states. The pilots were successful for the following reasons: 1) all six carriers achieved cost savings, 2) the CD-ROM received overall positive feedback from the physician community, and 3) carriers noticed increased Web site utilization by the physician community. For the 2005 mailing, use of a CD-ROM became a requirement for all carriers.

B. Policy:

Each year carriers conduct an open enrollment period in order to provide eligible physicians with the opportunity to make their calendar year Medicare participation decision by December 31. In order to facilitate this enrollment, carriers undertake a mass mailing of the annual disclosure and "Dear Doctor" material to all physicians in their jurisdiction in early November. The Medicare Claims Processing Manual (Pub. 100-04, Chapter 1) will be updated in the future to reflect mailing the "Dear Doctor" material on a CD-ROM.

For this year's mailing, CMS is requesting again that all carriers furnish the "Dear Doctor" material and fee schedule locality reports via CD-ROM. In addition, carriers shall include supplemental materials on the disc to enhance the value of the CD-ROM to physicians. The CMS is exploring the possibility of furnishing a video message to the carriers to include on the CD-ROM. The CMS will provide guidance on including the video (or any other CMS-provided material) for the CD-ROM in a separate instruction.

Part II, Business Requirement (see below) contains the requirements for producing and furnishing the CD-ROM as well as evaluation guidelines. It also contains the requirements carriers shall follow for provider education regarding the CD-ROM initiative. However, no Medlearn Matters article will be produced for this change request.
